URGENT BUSINESS ASSISTANCE AND FAMILY INVESTMENT

I am sure, that this letter will be surprise to you; I am **Mr Vincent Raymond** of the **Republic of Liberia {West Africa}** and the former Aide De Camp of the incumbent **President, CHARLES TAYLOR**, of the Republic of Liberia who is presently facing World Court Netherlands. I got your contact through South Africa information Exchange S.A.I.E about your capability of championing this transaction with me.

The incumbent **PRESIDENT, CHARLES TAYLOR**, successfully toppled the former President of my Country, the Late **SAMUEL DOE** and ruled peaceful for few years. However, five {5} years ago, the rebels from the northern part of my country rebelled against the Government. Ever since then, my country has been at war. Due to this war, public funds and properties have been constantly looted and stolen by the Rebel Soldiers and Government Functionaries.

However, when the rebel attack became so serious, unnegotiable and unbearable, My colleague and I were assigned by the president on behalf of his cabinets to purchase ammunition worth of **US\$ 22MILLION {Twenty Two Million United States Dollars}** from South Africa, while we were still negotiating for arms deal in South Africa, we heard over the news that the rebel has invaded/captured the Capital City, Monrovia and the President Charles Taylor, has been given automaton to relinquish power, which took place on **11th day of August 2003**, so we saw this as a golden opportunity to divert the fund for our own interest, coupled with the news we heard about **AMERICA and ECOWAS** troops sent to **MONROVIA** for peace keeping.

Furthermore, we deposited the fund with the Security and Finance Company here in Johannesburg South Africa in which the content was not disclose to them, rather it was lodge in as family treasures worth **US\$22MILLION** where I am presently living as an Asylum Seeker. The Financial law of South Africa does not permit/allow asylum seeker any financial right. In view of this, coupled with the way in which this money was acquired, I decided not to invest this money anywhere in South Africa as a whole in-other to avoid confiscation.

For your effort, I am prepared to offer you **25%** of the total sum if you will assist me to transfer this money into your account overseas **5%** have been mapped out for expense that might be incurred in the process of this transaction, while the remaining **70%** will be for My Colleague and I which we intend to invest in your Country or anywhere you may deem fit under your close supervision and directive.

From the above, you will understand that our entire life and future of our families depends on this money, as such I will be very much appreciate if you can assist us. Please note that this transaction is **100% risk free**. The major thing I request from you is absolute assurance that this money will be safe when transferred to your account. If you can be of assistance, kindly contact me on the above telephone, email and fax number. Even if you have decided otherwise, I will be most grateful if you maintain the confidentiality of this matter.

I am looking forward to your urgent responds.

Yours sincerely.

MR VINCENT RAYMOND
